

Illinois Environmental Protection Agency

MEMORANDUM

DATE: March 17, 1978
TO: Division File
FROM: P. M. McCarthy - Southern Region
SUBJECT: Franklin County - L.P.C. 05580203
Benton/Wiggs

US EPA RECORDS CENTER REGION 5

398993

On June 12, 1975 Mr. Jerry Wiggs was granted Permit No. 1975-10-OP. The permit for this site remains in his name. Sometime during the winter of 1976-77, S & L Sanitation of Chester, Illinois began operating this site for Mr. Wiggs. On March 28, 1977, Mr. Wiggs requested that the permit be transferred to S & L Sanitation. It was denied on April 4, 1977 due to non-compliance of the Act and Rules and Regulations. S & L Sanitation operated this site until February 28, 1978. They operated solely on the west side of the on-site road and vacated the site, leaving it in a deplorable condition.

On March 1, 1978, Mr. Noble Risley began operating on the permitted area, east of the on-site road, under a new three year contract from the county.

For many reasons, including future litigation, we in the Southern Region prefer to differentiate the area filled by S & L Sanitation and that currently being filled by Mr. Risley. We, therefore will do the following on all file headings for all future correspondence, until further notice:

Franklin Co. - LPC 05580203
Benton/Wiggs (S & L)

Franklin Co. - LPC 05580203
Benton/Wiggs (Risley)

PMM:dw/2722/1
